Letter of Recommendation

To Whom It May Concern:

It is with much enthusiasm that I recommend Marmik Upadhyay for inclusion in the Master Program at your esteemed university. I was Marmik's instructor for "Introduction in Data Analysis" class during his master's studies at Maharaja Sayajirao University in Vadodara, India. Marmik displayed a very high level of creativity, wit and analytical thought during his studies at our university. His writing, research, and coding skills are truly phenomenal - in his projects in M.Sc. IT, he represented remarkable coding skills with a proper understanding of the system he worked with. He is a well-disciplined, passionate student with a pleasant personality. He went well beyond the course requirements in the quantity and quality of his project, putting in a lot of effort in his projects hours. He is ready to enroll and excel in his Masters and possesses the self-motivation to put in efforts and successfully execute the tasks that would come along the way. I would also like to emphasize the fact that he is a team player. Collaboration, creativity, and confidence are the 3 words that Identify with his personality.

Marmik's academic strengths are complemented by his passion for sports. He also shows leadership skills as a Third Year Class Representative in Science Faculty in 2016-17. He is good in Numerical, Statistics, Logics as he has a Mathematical and IT background. Humble in Victory and Gracious in defeat; he is someone who is always going to go the extra mile for getting positive results in academics.

In conclusion, I would highly recommend Marmik Upadhyay. If his past performance is any indication of how he'd perform in his Masters, he will be an extremely positive addition to your university. If you need any additional information, please feel free to reach out to me. Thank you !
